a sunday times paperback of the year a spectator and new statesman book of the year an illuminating and riveting read jonathan dimbleby jeremy bowen the international editor of the bbc has been covering the middle east since 1989 and is uniquely placed to explain its complex past and its troubled present here bowen offers you a gripping and invaluable guide to the modern middle east how it came to be and what its future might hold in the making of the modern middle east in part based on his acclaimed podcast our man in the middle east bowen takes you on a journey across the middle east and through its history he meets ordinary men and women on the front line their leaders whether brutal or benign he explores the power games that have so often wreaked devastation on civilian populations as those leaders whatever their motives jostle for political religious and economic control clear throughout is bowen s deep understanding of the political cultural and religious differences between countries as diverse as erdogan s turkey assad s syria netanyahu s israel and palestine whether hamas controlled gaza or the west bank and his long experience of covering events in the region

in the middle east and the making of the modern world cyrus schayegh takes up a fundamental problem historians face how to make sense of the spatial layeredness of the past he argues that the modern world s ultimate socio spatial feature was not the oft studied processes of globalization or state formation or urbanization rather it was fast paced mutually transformative intertwinements of cities regions states and global circuits a bundle of processes he calls transpatialization to make this case schayegh s study pivots around greater syria bilad al sham in arabic which is roughly coextensive with present day syria jordan lebanon and israel palestine from this region schayegh looks beyond to imperial and global connections diaspora communities and neighboring egypt iraq and turkey and he peers deeply into bilad al sham at cities and their ties and at global economic forces the ottoman and european empire states and the post ottoman nation states at work within the region he shows how diverse socio spatial intertwinements unfolded in tandem during a transformative stretch of time the mid nineteenth to mid twentieth centuries and concludes with a postscript covering the 1940s to 2010s

this 1991 study deals with a specific set of institutions in nineteenth century athens relying on matrimonial contracts travellers accounts memoirs and popular literature the authors show how distinctive forms of marriage kinship and property transmission evolved in athens in the nineteenth century these forms then became a feature of wider greek society which continued into the twentieth century greece was the first post colonial modern nation state in europe whose national identity was created largely by peasants who had migrated to the city as athenian society became less agrarian a new mercantile group superseded and incorporated previous elites and went on to dominate and control the new resources of the nation state such groups developed their own more mobile systems of property transmission mostly in response to external pressures of a political and economic character this is a persuasive piece of detective work which has advanced our knowledge of modern greece it is a model for scholarship on the development of family and other intimate ideologies where nation states encroach upon local consciousness

writer f scott fitzgerald s career itself is a metaphor for the vagaries of book publishing if fitzgerald would have had his way we would today refer to the great gatsby as either gold hatted gatsby trimalchio in west egg or the high bouncing lover a few years before gatsby fitzgerald had become a literary sensation at the age of 23 helen hooven santmyer a contemporary of fitzgerald s would not have a successful novel published until she was 88 and living in a nursing home in this book the author explores that mysterious place in publishing where art and commerce can either clash mesh or both along the way a wide range of authors from the literary greats to today s commercial superstars editors agents and publishers share their thoughts insights and experiences what inspires writers john steinbeck for example wrote every novel as if it were his last as if death were imminent why are some books successful and appreciated while others fall into oblivion the answers are often elusive never absolute but the stories and anecdotes are always fascinating

this book presents a collection of essays of how the city state of singapore s societal dynamics have evolved from the time of its birth as a nation in 1965 to the present key areas of singapore society are explored contributing to the understanding of the social organisation of the city this study reveals a shift from the modernisation studies in the 1970s to a more political economic turn as a consequence of the influence of dependency and world systems theories topics covered include urban studies family education medical care class and social stratification work language ethnic groups religion and crime and deviance

this new textbook will provide students of criminology with a better understanding of criminal justice policy and in doing so offers a framework for analysing the social economic and political processes that shape its creation the book adopts a policy oriented approach to criminal justice connecting the study of criminology to the wider study of british government public administration and politics throughout the book the focus is on key debates and competing perspectives on how policy decisions are made recognising that contemporary criminal justice policymakers operate in a highly politicised public arena under the gaze of an ever increasing variety of groups organisations and individuals who have a stake in a particular policy issue the book explores how and why these people seek to influence policymaking it also recognises that criminal policy differs from other areas of public policy as policy decisions affect the liberty and freedoms of citizens throughout key ideas and debates are linked to wider sociology criminology and social policy theory key features include a foreword by tim newburn leading criminologist and author of criminology 2nd edition 2013 a critical and informed analysis of the concepts ideas and institutional practices that shape criminal justice policy making an exploration of the relationship between criminal justice and wider social policy a critical analysis of the debate about how and why behaviour becomes defined as requiring a criminal justice solution a range of case studies tasks seminar questions and suggested further readings to keep the student engaged this text is perfect for students taking modules in criminology criminal justice and social and public policy as well as those taking courses on criminal and administrative law

the making of new world slavery argues that independent commerce geared to burgeoning consumer markets was the driving force behind the rise of plantation slavery the baroque state sought successfully to feed upon this commerce and with markedly less success to regulate slavery and racial relations to illustrate this thesis blackburn examines the deployment of slaves in the colonial possessions of the portuguese the spanish the dutch the english and the french plantation slavery is shown to have emerged from the impulses of civil society not from the strategies of individual states robin blackburn argues that the organization of slave plantations placed the west on a destructive path to modernity and that greatly preferable alternatives were both proposed and rejected finally he shows that the surge of atlantic trade predicated on the murderous toil of the plantations made a decisive contribution to both the industrial revolution and the rise of the west

roger l estrange 1616 1704 was one of the most remarkable significant and colourful figures in seventeenth century england whilst there has been regular if often cursory scholarly interest in his activities as licenser and stuart apologist this is the first sustained book length study of the man for almost a century l estrange s engagement on the royalist side during the civil war and his energetic pamphleteering for the return of the king in the months preceding the restoration earned him a reputation as one of the most radical royalist apologists as licenser for the press under charles ii he was charged with preventing the printing and publication of dissenting writings his additional role as surveyor of the press authorised him to search the premises of printers and booksellers on the mere suspicion of such activity he was also a tireless pamphleteer journalist and controversialist in the conformist cause all of which made him the bête noire of whigs and non conformists this collection of essays by leading scholars

of the period highlights the instrumental role I estrange played in the shaping of the political literary and print cultures of the restoration period taking an interdisciplinary approach the volume covers all the major aspects of his career as well as situating them in their broader historical and literary context by examining his career in this way the book offers insights that will prove of worth to political social religious and cultural historians as well as those interested in seventeenth century literary and book history

this book provides a new approach to the historical treatment of indigenous peoples sovereignty and property rights in australia and new zealand by shifting attention from the original european claims of possession to a comparison of the ways in which british players treated these matters later bain attwood not only reveals some startling similarities between the australian and new zealand cases but revises the long held explanations of the differences he argues that the treatment of the sovereignty and property rights of first nations was seldom determined by the workings of moral principle legal doctrine political thought or government policy instead it was the highly particular historical circumstances in which the first encounters between natives and europeans occurred and colonisation began that largely dictated whether treaties of cession were negotiated just as a bitter political struggle determined the significance of the treaty of waitangi and ensured that native title was made in new zealand

while living in paris at the beginning of the twentieth century expatriate american writers edith wharton 1862 1937 and gertrude stein 1874 1946 never crossed paths even so they did rub shoulders in print in autobiographical essays published by the atlantic monthly in 1933 noel sloboda shows that the authors pursued many of the same professional goals in these essays and in the book length life writings that grew out of them a backward glance 1934 and the autobiography of alice b toklas 1933 by analyzing the personal and cultural contexts in which these works were produced as well as subjects common to both of them sloboda illuminates a previously unrecognized solidarity between wharton and stein the relationship between the authors is built upon careful analysis of a backward glance and the autobiography of alice b toklas and it is framed by a consideration of the markets into which their life writings were first released the alignment of wharton and stein as life writers will be of interest to those studying autobiography modern literature and american women writers

From Milliliters to Liters: A Simple Conversion Guide

Understanding unit conversions is crucial in many aspects of life, from cooking and baking to scientific experiments and everyday measurements. This article will focus on a common conversion: changing milliliters (ml) to liters (L). While it may seem simple at first glance, grasping the underlying concept will empower you to confidently tackle similar conversions in the future.

1. Understanding Milliliters and Liters

Before diving into the conversion, let's clarify what milliliters and liters represent. Both are units of volume, measuring the amount of three-dimensional space occupied by a substance. Think of it as how much something "fills up." Liter (L): The liter is the base unit of volume in the metric system. Imagine a one-liter bottle of soda - that's a good visual representation of this unit. Milliliter (ml): "Milli" is a prefix meaning one-thousandth (1/1000). Therefore, a milliliter is one-thousandth of a liter. This means 1000 ml equals 1 L.

2. The Conversion Factor: The Key to Success

The core of any unit conversion lies in the conversion factor. In this case, our conversion factor is the relationship between milliliters and liters: $1 \text{ L} = 1000 \text{ ml}$ or equivalently, $1 \text{ ml} = 0.001 \text{ L}$. This simple equation is the key to unlocking the conversion from milliliters to liters. We use this factor to create a mathematical bridge between the two units.

3. Converting 450 ml to Liters: A Step-by-Step Approach

Now, let's convert 450 ml to liters using our conversion factor. We can do this in two ways: Method 1: Using the ratio We can set up a proportion using the conversion factor: $1 \text{ L} / 1000 \text{ ml} = x \text{ L} / 450 \text{ ml}$ To solve for x (the number of liters), we cross-multiply: $1000x = 450$ $x = 450 / 1000$ $x = 0.45 \text{ L}$ Therefore, 450 ml is equal to 0.45 liters. Method 2: Using the decimal equivalent Since $1 \text{ ml} = 0.001 \text{ L}$, we can simply multiply the number of milliliters by the conversion factor: $450 \text{ ml} \times 0.001 \text{ L/ml} = 0.45 \text{ L}$ This method is often quicker for simple conversions. Notice that the "ml" units cancel each other out, leaving us with the desired unit of "L".

4. Practical Examples: Putting it into Context

Let's consider some real-world applications to solidify our understanding: Recipe Conversion: A recipe calls for 450 ml of milk. You only have a liter measuring jug. Using our conversion, you know you need 0.45 liters, which is slightly less than half a liter. Medical Dosage: A medicine bottle indicates a dosage of 300 ml. To express this in liters, you calculate $300 \text{ ml} \times 0.001 \text{ L/ml} = 0.3 \text{ L}$. Fuel Consumption: Your car's fuel efficiency is given in liters per kilometer. If you know your car consumes 450 ml of fuel per kilometer, you can convert this to 0.45 liters per kilometer for a better understanding of your fuel usage.

5. Key Takeaways and Actionable Insights

The conversion factor $1 \text{ L} = 1000 \text{ ml}$ is fundamental to converting between milliliters and liters. Remember to always pay attention to the units and ensure they cancel out correctly during calculations. Practice different methods of conversion (ratio and decimal multiplication) to build confidence and find your preferred approach. Apply this knowledge to

various real-world situations involving volume measurements.

FAQs: Addressing Your Questions

1. Can I convert liters to milliliters using the same principle? Yes, absolutely! You would simply reverse the conversion factor: Multiply the number of liters by 1000 to get the equivalent in milliliters. 2. What if I have a number with a decimal in milliliters? The conversion process remains the same; simply multiply by 0.001 or use the ratio method. 3. Are there other metric units of volume? Yes, there are larger units like kiloliters (kL) and smaller units like microliters (µL). The principles of conversion remain similar, just using different conversion factors. 4. Why is understanding unit conversion important? Accurate unit conversion is crucial for avoiding errors in various fields, ensuring correct measurements, and facilitating clear communication. 5. Are there online tools to help with unit conversions? Yes, many free online converters are available. However, understanding the underlying principles is crucial for problem-solving and avoiding reliance on technology in all situations.
