the idea of compiling a bibliography of legal festschriften originated with Lilly Roberts and represented the most important creative side of her life during the last ten years of her association with the university of Michigan law library the project received advice and counsel from the foreign law committee of the American Association of Law Libraries the final publication was made possible by an allocation from the grant made to the university of Michigan law school by the Ford Foundation for research in international and comparative law Beverly J. Pooley professor of law director of the law library university of Michigan preface the present bibliography is international in scope it covers festschriften published in many countries it includes festschriften from 1868 date of the earliest legal festschrift found through December 1968 a bibliography of all legal festschriften to be complete could only be achieved through the cooperative effort of an international group of experts the present bibliography is based on notes gathered by the compiler over a period of years from material available at the university of Michigan law library it is therefore inevitably incomplete and occasionally inaccurate and must be considered as a tentative list subject to implementation and correction at other legal centers it was felt however that its publication might be of some use since not enough bibliographical information about this important and steadily growing type of legal literature exists

the intellectual struggle for florence is an analysis of the ideology that developed in florence with the rise of the medici during the early fifteenth century the period long recognized as the most formative of the early renaissance instead of simply describing early renaissance ideas this volume attempts to relate these ideas to specific social and political conflicts of the fifteenth century and specifically to the development of the medici regime it first shows how the medici party came to be viewed as fundamentally different from their opponents the oligarchs then explores the intellectual world of these oligarchs the traditional culture as political conflicts sharpened some humanists leonardo bruni and francesco filelfo with close ties to oligarchy still attempted to enrich traditional culture with classical learning while others such as niccolo niccoli and poggio bracciolini rejected tradition outright and created a new ideology for the medici party what is striking is the extent to which

niccoli and poggio were able to turn a latin or classical culture into a popular culture and how the culture of the vernacular remained traditional and oligarchic

## Iran in the 1970s: A Nation on the Cusp of Revolution

Imagine a land of shimmering deserts, ancient palaces, and a burgeoning modern cityscape – a nation poised on the precipice of dramatic change. This was Iran in the 1970s, a period marked by rapid modernization under the Shah, Mohammad Reza Pahlavi, juxtaposed against a simmering discontent that would ultimately erupt into a revolution reshaping the Middle East. This era, far from being a monolithic block of history, was a complex tapestry woven with threads of progress, repression, and unwavering social and political tension. Understanding this decade is crucial to grasping the Iran of today.

## The Shah's White Revolution: A Vision of Modernity?

The 1960s and 70s witnessed the Shah's ambitious "White Revolution," a series of sweeping reforms aimed at modernizing Iran's economy and society. This involved land reforms – distributing land from large landowners to peasant farmers – the expansion of women's suffrage, and significant investments in infrastructure, education, and industry. The Shah envisioned Iran becoming a regional powerhouse, a "modern" nation mimicking Western models of development. Massive projects like the construction of the Shah Abbas the Great Highway, connecting Tehran to the south, stand as testament to this ambition. While these reforms aimed at improving living standards for many, they were often implemented forcefully, leading to widespread resentment among traditional power structures and religious leaders. The concentration of wealth in the hands of a few, alongside the growing influence of Western corporations, exacerbated existing inequalities.

## The Rise of the SAVAK and the Repression of Dissent

The Shah's modernization drive was inextricably linked to the SAVAK, his secret police. This feared organization brutally suppressed any opposition to the regime, silencing political dissidents, intellectuals, and religious figures. The SAVAK employed widespread surveillance, torture, and imprisonment, creating a climate of fear and stifling any potential for democratic expression. Their methods included infiltration of social groups, monitoring of communications, and extrajudicial killings. The pervasive atmosphere of fear stifled any meaningful debate or opposition, creating a pressure cooker environment that would ultimately explode in 1979. This repression, arguably, was the most significant factor contributing to the growing anti-Shah

sentiment.

## Economic Boom and Growing Inequality: A Paradox of Progress

The 1970s saw a significant oil boom, transforming Iran's economy. The discovery and exploitation of vast oil reserves led to unprecedented wealth for the nation. However, this wealth was not evenly distributed. While the Shah's circle and Western corporations reaped enormous profits, many Iranians continued to struggle with poverty and lack of access to basic resources. This stark inequality fueled social unrest, creating a fertile ground for revolutionary movements. The influx of foreign capital and technology also led to rapid urbanization, causing further social upheaval as people migrated from rural areas to cities, often facing unemployment and inadequate housing.

## The Seeds of Revolution: Religious Opposition and Growing Discontent

Despite the economic progress, religious resentment simmered beneath the surface. Ayatollah Ruhollah Khomeini, a prominent Shia cleric, became a powerful symbol of opposition to the Shah's secularizing policies and his close ties with the West. Khomeini's message resonated deeply with many Iranians who felt alienated by the rapid modernization and the perceived erosion of traditional values. His exile to Iraq and later France didn't diminish his influence; his powerful sermons, disseminated through audiotapes and word of mouth, ignited a fervent anti-Shah movement. This opposition, combined with the growing economic inequality and the SAVAK's brutal repression, created a potent mix that ultimately led to the Iranian Revolution.

## Conclusion: A Turning Point in Iranian History

The 1970s in Iran represent a pivotal period, a decade of dramatic contrasts. The Shah's ambitious modernization plans, driven by oil wealth, brought about undeniable progress in some areas. However, this progress was marred by rampant inequality, brutal repression, and the erosion of traditional social structures. The simmering discontent, fueled by the SAVAK's actions and

the growing power of religious opposition, culminated in the 1979 Iranian Revolution, forever changing the course of Iranian history and the geopolitical landscape of the Middle East. Understanding this complex decade is vital to comprehending the political and social dynamics of contemporary Iran. FAQs: 1. What role did the United States play in Iran during the 1970s? The US was a close ally of the Shah, providing significant military and economic support. This support, however, ultimately became a source of anti-American sentiment among those opposed to the regime. 2. How did the oil boom affect the Iranian economy? The oil boom led to rapid economic growth but also contributed to significant inflation, inequality, and dependence on a single resource. 3. What were the main causes of the Iranian Revolution? The revolution was a complex event with multiple causes, including the Shah's authoritarian rule, the SAVAK's repression, growing economic inequality, and religious opposition to secularization. 4. What was the significance of Ayatollah Khomeini's role? Khomeini emerged as the leading voice of opposition to the Shah, rallying widespread support for the revolution and ultimately becoming Iran's Supreme Leader after the Shah's overthrow. 5. How did the 1970s in Iran impact the region and the world? The Iranian Revolution had a profound impact on the Middle East and the world, leading to increased regional instability and inspiring revolutionary movements elsewhere. It also profoundly altered the relationship between Iran and the West.
