to become a witch or not to become a witch that is the question at least that s the question kara heather and stella three of the gypsy healers are facing the high fae ambassador perizada the healers and a host of wolves are in a race against time to create the witch army that volcan desires but they must also keep the gypsy healers beings of pure light and goodness from becoming evil in the process should be a piece of cake meanwhile the werewolf males are fighting their innate hunger to mark their mates and finish the blood rites thereby keeping their own darkness at bay if they remain unbound a chink forms in the packs armor one that volcan won t hesitate to exploit when he finds it

supernatural war is on the horizon and no one will escape unscathed enemy after enemy foe after foe has fallen before the combined might of the romanian grey wolves and their allies among the supernatural races but now the alliance doesn t fight a single supernatural threat it s no longer a single coven of vampires a lone deranged warlock or a rogue pack that threatens their safety now the wolves face a unified force of evil the order of the burning claw the order needs a representative from every supernatural race to unleash a spell that will enslave humanity forever and they ve just recruited one of their most powerful members the order will stop at nothing to gain power including kidnapping the pack s children and its beleaguered healer the romanian pack would love nothing more than to bring the wrath of the great luna down upon their foes but how can they do that when their enemies hold captive the pack s greatest treasures before this is over bonds

will be tested a new leader will rise and all hell will break loose

long ago during the great purge the witches that had grown too many in number and too powerful were destroyed the high fae council saw that the balance of good and evil had been tipped too far in one direction and it had to be rectified so they killed all of the witches and their creator or so they thought but they were wrong volcan the high fae who had once been a member of their council until he decided he wanted to be all powerful and created the witches had bided his time hiding in the dark forest now he s back and hell bent on rebuilding his army of witches only this time he s set his eyes on the gypsy healers to be the tool from which he creates them he already has two of the newly found healers jewel and anna with his blood running in their veins and though he thinks he s got it all planned out what volcan hadn t calculated into his formula of healers his blood witches was the healer s mates dalton and gustavo both males are more than ready to sink their teeth into the high fae who has taken their females with the darkness closing in on all four of them it is a toss up as to who will succumb to it first mean while the healers and wolves peri had stashed in the pixie realm are sitting ducks with the veil between them and the human realm locked the mates of those healers are holding onto their self control by a thread as they try to figure out a way to get them out of the pixie realm perizada is once again fighting for those who are under her protection while at the same time trying not to kill them herself considering the healers tend to do stupid heroic stuff and the wolves just do stupid stuff period it s not certain who will destroy who the only thing that was certain none of them was willing to surrender throw in a powerful eccentric djinn who has suddenly gotten bored and things are guaranteed to get messy this is the continuation of the story of the five gypsy healers the fae who protects them and the wolves whose wrath will consume any who come between them

the romanian and serbian canis lupus rest in an uneasy peace one of their own sally miklos the young and powerful gypsy healer aids perizada in her quest to defeat volcan a long forgotten nightmare returned to our world these two packs watch as their brothers across the world wolves from spain ireland and america join their own forces in the battle against the evil dark fae at the same time the packs hope against hope that their presence might reveal a mate bond between a pack member and one of the five recently discovered gypsy healers while jacque and jen miss sally their longtime best friend they have bided their time dealing with their own domestic issues jacque and fane are anticipating the birth of their first child and jen and decebel face the challenges of caring for an infant both girls are eagerly awaiting sally s return and have perizada s word that she will be back in time for the birth of jacque s baby vasile and alina the alpha pair of the romanian pack are enjoying this time of peace but vasile did not become the most powerful alpha in centuries by being a fool he has lived long enough to know that there is always another battle on the horizon as long as evil exists in this world his race must step forward and stand in the gap shielding those who cannot protect themselves but the battle he is anticipating is bigger than he could have ever imagined as perizada has recently discovered creatures of the night that have for so long remained hidden from the human realm have slithered from their underground lairs and begun preying on the young and innocent the high fae has declared war and she expects vasile and his wolves to be the ones to carry out the attack the alpha is more than happy to oblige but with his first grandchild on the way and the gift of five vulnerable healers coming under the wolves protection he understands that he must be very careful not to place any of them in harm s way such is the job of the alpha protector and provider he and those he leads must stand as sentinels and warriors to safeguard those they love and the humans who know nothing of the supernatural world it will be their job to destroy the creatures that threaten to expose them all and if they fail the world as they know it both human and supernatural will never be the same

it's been six months since jacque lupei was imprisoned in the dark forest with her female pack mates wondering if they would ever see their mates again six months since she and fane found out that jen and decebel would not be the only couple adding a new pup to the pack six months of peace and quiet other than jen running her mouth incessantly about sally getting to go on an adventure with peri while she has to miss all the fun when she isn't complaining about that she spends her time commenting on how jacque's butt is getting wider by the minute jacque doesn't know it but the reprieve was about to be over she and fane thought his demons had been dealt with but the nightmares are back and the in between is once again ripping a hole inside of her mate jacque can't stand to see him hurting she can't stand knowing that in some way she was responsible for his struggle because she after all was the subject of his pain from the in between she'll do anything to stop his turmoil so she makes a desperate decision to do what she thinks her mate needs or doesn't need others will

call it insane jen will add her own creative descriptions including expletives thrown in for added effect whatever you call it jacque calls it an answer to the darkness that is slowly consuming her mate she knows that if fane has any idea of what she has planned he would chain her to his side so naturally she does what any female canis lupus would do in her shoes she shuts down the bond and prays that no one gets in her way she knows he might never forgive her but then if her plan works he won't even remember her name

from the author who brought you the award winning grey wolves and elfin series now brings you a new series based on the human legend the sandman the truth of who and what he is lies between these pages and he is so much more than anyone could have ever imagined in the evening he blows softly upon their necks till their heads begin to droop under each arm he carries an umbrella one of them with pictures on the inside he spreads over the good children and then they dream the most beautiful stories the whole night hans christian anderson since the dawn of time brudair otherwise known as the sandman to the world has faithfully lived out his purpose faithfully performed his duties he has never questioned his lot among the immortals until now until her sarah serenity tillman a consummate beauty both inside and out is a high school senior five months from her graduation she has great plans dreams of leaving the small town of her childhood behind her forever but destiny has other plans and it s the sandman s job to make sure those plans are fulfilled the tall muscular sandman known as dair to his friends dressed in black wrapped in shadows is more than a myth and he has a job to do his very existence makes him a creature of the night because dreams yes the legends got that part right were indeed his specialty but his purpose was more than just weaving dreams for sleeping children no his dreams were made to influence made to ensure that certain special individuals those individuals who would change the course of history actually accepted their chosen destiny little does serenity know that she is dair s next assignment and the dream that he weaves for her if she follows its influence will change the course of not only her life but possibly the whole of history as well but she isn t the only one being influenced the beauty inside of her was weighing on the sandman lighting up the darkness that was his constant companion her light was warmth it was life and he didn t understand how he had survived the previous millennia without it the sandman was indeed greater than anything humans had ever imagined and his purpose was vital to the course of history so what happens when the weaver of dreams gets so distracted by a mere human that he ignores his own duties in the immortal realm how can an immortal who was never meant to have a mate join a young woman in her destiny without irrevocably changing the lives of millions and potentially altering history in a way the creator never intended dream of me princess dair whispered into her ear then weave me a dream sandman she said softly and we can dream together as her eyes grew heavy she heard dair s voice telling her to sleep to open her mind to him and let him in i m all yours she thought as sleep finally claimed her

| The Rust Belt: A Legacy of Industrial Decline and Transformation

The term "Rust Belt" conjures images of decaying factories, abandoned industrial sites, and struggling communities. It's not simply a geographical label; it represents a complex socio-economic phenomenon describing a region of the United States that experienced significant industrial decline starting in the latter half of the 20th century. This article will delve into the reasons behind the designation "Rust Belt," exploring its historical context, the factors contributing to its decline, and its ongoing transformation.

| The Rise of Industrial Power: Setting the Stage

Before understanding the "rusting," it's crucial to acknowledge the period of unprecedented industrial growth that preceded it. From the late 19th and throughout the 20th century, a swathe of the northeastern and midwestern United States experienced explosive industrial growth. Cities like Pittsburgh, Cleveland, Detroit, Chicago, and Buffalo became centers of steel production, automobile manufacturing, and other heavy industries. This era saw massive job creation, population booms, and the development of a robust manufacturing base that fueled the American economy and global power. The region's infrastructure – railways, canals, and ports – was built to support this burgeoning industry, creating a self-reinforcing cycle of prosperity.

| The Seeds of Decline: Factors Contributing to Rust

Several interconnected factors contributed to the decline of the Rust Belt's industrial dominance. These factors are not mutually exclusive and often reinforced each other.

1. Globalization and Competition:

The rise of global competition, particularly from countries with lower labor costs and relaxed environmental regulations, dealt a significant blow to the Rust Belt's industries. Foreign manufacturers could produce goods at a lower price, making it difficult for American companies to compete. This led to plant closures, job losses, and a shrinking industrial base. For example, the American auto industry faced intense competition from Japanese manufacturers like Toyota and Honda in the 1970s and 80s, leading to widespread job losses in Detroit and surrounding areas.

2. Automation and Technological Change:

Technological advancements, particularly automation, reduced the demand for manual labor in manufacturing. While increasing efficiency, these advancements also led to significant job displacement. Robots and automated systems could perform tasks previously done by human workers, contributing to factory closures and unemployment in the Rust Belt.

3. Shifting Economic Priorities:

The post-World War II economic boom shifted towards a service-based economy. The growth of technology, finance, and information sectors attracted investment and jobs away from traditional manufacturing hubs in the Rust Belt. This created a regional imbalance, exacerbating the effects of globalization and automation.

4. Infrastructure Decay and Environmental Concerns:

Decades of heavy industrial activity left much of the Rust Belt's infrastructure aging and in need of repair. Additionally, environmental concerns regarding pollution from factories led to increased regulation and cleanup costs, further impacting the competitiveness of Rust Belt industries.

The "Rusting" Process: Visualizing the Decline

The term "Rust Belt" itself is a powerful metaphor. The image of rusting steel, decaying factories, and abandoned industrial sites visually represents the decline of the region's manufacturing base. The term gained traction in the 1980s as the economic woes of the region became increasingly apparent, reflecting the visible decay of its industrial infrastructure and the resulting social and economic hardship.

Rebirth and Regeneration: A New Chapter

While the term "Rust Belt" carries a connotation of decline, it's inaccurate to portray the region as simply a collection of decaying industrial relics. Significant efforts are underway to revitalize the region, focusing on diversification, technological innovation, and investment in education and infrastructure. Cities are attempting to attract new businesses and industries, repurposing former industrial sites for new uses, and fostering entrepreneurship. For example, many former industrial buildings have been converted into loft apartments, attracting a younger, more creative population.

Summary

The "Rust Belt" represents a historical period of industrial decline in the northeastern and midwestern United States. This decline stemmed from a complex interplay of globalization, automation, shifting economic priorities, and infrastructure decay. While the term evokes images of economic hardship, the Rust Belt is undergoing a significant transformation, with efforts focused on diversification, technological innovation, and the creation of a new economic landscape.

FAQs:

1. What states are typically considered part of the Rust Belt? The Rust Belt generally includes parts of Pennsylvania, Ohio, Michigan, Indiana, Illinois, Wisconsin, and New York. The exact boundaries are debatable and often depend on the specific criteria used. 2. When did the decline of the Rust Belt begin? The decline started gradually in the mid-20th century but accelerated significantly in the 1970s and 1980s with the rise of global competition and automation. 3. What industries were most affected by the Rust Belt decline? The automobile industry, steel production, and other heavy manufacturing sectors were most heavily impacted. 4. Is the Rust Belt still economically depressed? While some areas remain challenged, the region is experiencing a degree of economic revitalization through diversification and investment in new industries. The economic picture varies greatly within the region. 5. What is being done to revive the Rust Belt? Efforts include attracting new businesses, investing in infrastructure, improving education, supporting entrepreneurship, and repurposing former industrial sites for new uses.
