a sunday times paperback of the year a spectator and new statesman book of the year an illuminating and riveting read jonathan dimbleby jeremy bowen the international editor of the bbc has been covering the middle east

since 1989 and is uniquely placed to explain its complex past and its troubled present here bowen offers you a gripping and invaluable guide to the modern middle east how it came to be and what its future might hold in the making of the modern middle east in part based on his acclaimed podcast our man in the middle east bowen takes you on a journey across the middle east and through its history he meets ordinary men and women on the front line their leaders whether brutal or benign he explores the power games that have so often wreaked devastation on civilian populations as those leaders whatever their motives jostle for political religious and economic control clear throughout is bowen s deep understanding of the political cultural and religious differences between countries as diverse as erdogan s turkey assad s syria netanyahu s israel and palestine whether hamas controlled gaza or the west bank and his long experience of covering events in the region

in the middle east and the making of the modern world cyrus schayegh takes up a fundamental problem historians face how to make sense of the spatial layeredness of the past he argues that the modern world s ultimate socio spatial feature was not the oft studied processes of globalization or state formation or urbanization rather it was fast paced mutually transformative intertwinements of cities regions states and global circuits a bundle of processes he calls transpatialization to make this case schayegh s study pivots around greater syria bilad al sham in arabic which is roughly coextensive with present day syria jordan lebanon and israel palestine from this region schayegh looks beyond to imperial and global connections diaspora communities and neighboring egypt iraq and turkey and he peers deeply into bilad al sham at cities and their ties and at global economic forces the ottoman and european empire states and the post ottoman nation states at work within the region he shows how diverse socio spatial intertwinements unfolded in tandem during a transformative stretch of time the mid nineteenth to mid twentieth centuries and concludes with a postscript covering the 1940s to 2010s

this 1991 study deals with a specific set of institutions in nineteenth century athens relying on matrimonial contracts travellers accounts memoirs and popular literature the authors show how distinctive forms of marriage kinship and property transmission evolved in athens in the nineteenth century these forms then became a feature of wider greek society which continued into the twentieth century greece was the first post colonial modern nation state in europe whose national identity was created largely by peasants who had migrated to the city as athenian society became less agrarian a new mercantile group superseded and incorporated previous elites and went on to dominate and control the new resources of the nation state such groups developed their own more mobile systems of property transmission mostly in response to external pressures of a political and economic character this is a persuasive piece of detective work which has advanced our knowledge of modern greece it is a model for scholarship on

the development of family and other intimate ideologies where nation states encroach upon local consciousness

writer f scott fitzgerald s career itself is a metaphor for the vagaries of book publishing if fitzgerald would have had his way we would today refer to the great gatsby as either gold hatted gatsby trimbalchio in west egg or the high bouncing lover a few years before gatsby fitzgerald had become a literary sensation at the age of 23 helen hooven santmyer a contemporary of fitzgerald s would not have a successful novel published until she was 88 and living in a nursing home in this book the author explores that mysterious place in publishing where art and commerce can either clash mesh or both along the way a wide range of authors from the literary greats to today s commercial superstars editors agents and publishers share their thoughts insights and experiences what inspires writers john steinbeck for example wrote every novel as if it were his last as if death were imminent why are some books successful and appreciated while others fall into oblivion the answers are often elusive never absolute but the stories and anecdotes are always fascinating

this book presents a collection of essays of how the city state of singapore s societal dynamics have evolved from the time of its birth as a nation in 1965 to the present key areas of singapore society are explored contributing to the understanding of the social organisation of the city this study reveals a shift from the modernisation studies in the 1970s to a more political economic turn as a consequence of the influence of dependency and world systems theories topics covered include urban studies family education medical care class and social stratification work language ethnic groups religion and crime and deviance

this new textbook will provide students of criminology with a better understanding of criminal justice policy and in doing so offers a framework for analysing the social economic and political processes that shape its creation the book adopts a policy oriented approach to criminal justice connecting the study of criminology to the wider study of british government public administration and politics throughout the book the focus is on key debates and competing perspectives on how policy decisions are made

recognising that contemporary criminal justice policymakers operate in a highly politicised public arena under the gaze of an ever increasing variety of groups organisations and individuals who have a stake in a particular policy issue the book explores how and why these people seek to influence policymaking it also recognises that criminal policy differs from other areas of public policy as policy decisions affect the liberty and freedoms of citizens throughout key ideas and debates are linked to wider sociology criminology and social policy theory key features include a foreword by tim newburn leading criminologist and author of criminology 2nd edition 2013 a critical and informed analysis of the concepts ideas and institutional practices that shape criminal justice policy making an exploration of the relationship between criminal justice and wider social policy a critical analysis of the debate about how and why behaviour becomes defined as requiring a criminal justice solution a range of case studies tasks seminar questions and suggested further readings to keep the student engaged this text is perfect for students taking modules in criminology criminal justice and social and public policy as well as those taking courses on criminal and administrative law

the making of new world slavery argues that independent commerce geared to burgeoning consumer markets was the driving force behind the rise of plantation slavery the baroque state sought successfully to feed upon this commerce and with markedly less success to regulate slavery and racial relations to illustrate this thesis blackburn examines the deployment of slaves in the colonial possessions of the portuguese the spanish the dutch the english and the french plantation slavery is shown to have emerged from the impulses of civil society not from the strategies of individual states robin blackburn argues that the organization of slave plantations placed the west on a destructive path to modernity and that greatly preferable alternatives were both proposed and rejected finally he shows that the surge of atlantic trade predicated on the murderous toil of the plantations made a decisive contribution to both the industrial revolution and the rise of the west

roger l estrange 1616 1704 was one of the most remarkable significant and colourful figures in seventeenth century england whilst there has been regular if often cursory scholarly interest in his activities as licenser and stuart apologist this is the first sustained book length study of the man for almost a century l estrange s engagement on the royalist side during the civil war and his energetic pamphleteering for the return of the king in the months preceding the restoration earned him a reputation as one of the most radical royalist apologists as licenser for the press under charles ii he was charged with preventing the printing and publication of dissenting writings his additional role as surveyor of the press authorised him to search the premises of printers and booksellers on the mere suspicion of such activity he was also a tireless pamphleteer journalist and controversialist in the conformist cause all of which made him the bête noire of whigs and non conformists this collection of essays by leading scholars of the period

highlights the instrumental role literature played in the shaping of the political literary and print cultures of the restoration period taking an interdisciplinary approach the volume covers all the major aspects of his career as well as situating them in their broader historical and literary context by examining his career in this way the book offers insights that will prove of worth to political social religious and cultural historians as well as those interested in seventeenth century literary and book history

this book provides a new approach to the historical treatment of indigenous peoples sovereignty and property rights in australia and new zealand by shifting attention from the original european claims of possession to a comparison of the ways in which british players treated these matters later bain attwood not only reveals some startling similarities between the australian and new zealand cases but revises the long held explanations of the differences he argues that the treatment of the sovereignty and property rights of first nations was seldom determined by the workings of moral principle legal doctrine political thought or government policy instead it was the highly particular historical circumstances in which the first encounters between natives and europeans occurred and colonisation began that largely dictated whether treaties of cession were negotiated just as a bitter political struggle determined the significance of the treaty of waitangi and ensured that native title was made in new zealand

this book analyses the founding years of consumer law and consumer policy in europe it combines two dimensions the making of national consumer law and the making of european consumer law and how both are intertwined the chapters on germany italy the nordic countries and the united kingdom serve to explain the economic and the political background which led to different legal and policy approaches in the then old member states from the 1960s onwards the chapter on poland adds a different layer the one of a former socialist country with its own consumer law and how joining the eu affected consumer law at the national level the making of european consumer law started in the 1970s rather cautiously but gradually the european commission took an ever stronger position in promoting not only european consumer law but also in supporting the building of the european consumer organisation beuc the umbrella organisation of the national consumer bodies the book unites the early protagonists who were involved in the making of consumer law in europe guido alpa ludwig krämer ewa letowska hans w micklitz klaus tonner iain ramsay and thomas wilhelmsson supported by the younger generation aneta wiewiórowska domagalska mateusz grochowski and koen docter who reconstructs the history of beuc niklas olsen and thomas roethe analyse the construction of this policy field from a historical and sociological perspective this book offers a unique opportunity to understand a legal and political field that of consumer law and policy which plays a fundamental role in our contemporary societies

the twisting and weaving of nature s materials grasses twigs rushes and vines into useful and beautiful forms seems almost instinctive in man perhaps it came to him as the nest weaving instinct comes to birds for at first he used it as they do in the building of his house later shields and boats were formed of wicker work but how long ago the first basket was made no one is wise enough to tell us to day indian tribes in south america weave baskets from their native palms south african negroes use reeds and roots while the chinese and japanese are wonderful workmen in this as in other arts and industries but basketry has come down to us more directly through the american indian generations of these weavers have produced masterpieces many of which are preserved in our museums and the young basket maker need not go on long pilgrimages to study the old masters of his craft here at last as in england the value of manual training is being realized and basketry is taking an important place following the kindergarten and enabling the child to apply the principles he has learned there he still works from the centre out and weaves as he wove his paper

while living in paris at the beginning of the twentieth century expatriate american writers edith wharton 1862 1937 and gertrude stein 1874 1946 never crossed paths even so they did rub shoulders in print in autobiographical essays published by the atlantic monthly in 1933 noel sloboda shows that the authors pursued many of the same professional goals in these essays and in the book length life writings that grew out of them a backward glance 1934 and the autobiography of alice b toklas 1933 by analyzing the personal and cultural contexts in which these works were produced as well as subjects common to both of them sloboda illuminates a previously unrecognized solidarity between wharton and stein the relationship between the authors is built upon careful analysis of a backward glance and the autobiography of alice b toklas and it is framed by a consideration of the markets into which their life writings were first released the alignment of wharton and stein as life writers will be of interest to those studying autobiography modern literature and american women writers

in the tradition of theodore white s landmark books the definitive look at how donald j trump shocked the world to become president from roger stone a new york times bestselling author longtime political adviser and friend to donald trump and consummate republican strategist comes the first in depth examination of how trump s campaign tapped into the national mood to deliver a stunning victory that almost no one saw coming in the early hours of november 9 2016 one of the most contentious polarizing and vicious presidential races came to an abrupt and unexpected end when heavily favored presidential hopeful hillary clinton called donald j trump to concede shocking a nation that had only hours before given little credence to his chances donald trump pulled the greatest upset in american political history despite a torrent of invective and dismissal of the mainstream media stone a long time trump retainer and confidant gives us the inside story of how donald trump almost single handedly harnessed discontent among forgotten americans despite running a guerrilla style grass roots campaign

to compete with the smooth running and free spending clinton political machine from the start trump s campaign was unlike any seen on the national stage combative maverick and fearless trump s nomination was the hostile takeover of the republican party and a resounding repudiation of the failed leadership of both parties whose policies have brought america to the brink of financial collapse as well as endangering our national security here stone outlines how donald trump skillfully ran as the anti open borders candidate as well as a supporter of american sovereignty and how he used the globalist trade deals like nafta to win over three of ten bernie sanders supporters the veteran adviser to nixon reagan and trump charts the rise of the alt conservative media and the end of the mainstream media monopoly on voter impacting information dissemination this is an insider s view that includes studying opposition research into bill hillary and chelsea clinton s crimes and the struggle by the republican establishment to stop trump and how they underestimated him stone chronicles trump s triumph in three debates where he skillfully lowered expectation levels but skewered mrs clinton for the corruption of the clinton foundation her mishandling of government email and her incompetence as secretary of state stone gives us the inside word on julian assange wikileaks clinton campaign chief john podesta huma abedin anthony weiner carlos danger doug band jeffery epstein and the efforts to hide the former first lady s infirmities and health problems stone dissects the phony narrative that trump was in cahoots with russian strongman vladimir putin or that the e mails released by wikileaks came from the russians the making of the president 2016 reveals how trump brilliantly picked at hillary clinton s weaknesses particularly her reputation as a crooked insider and ignited the passions of out of work white men and women from the rust belt and beyond at a time when millions of americans desperately wanted change stone also reveals how and why the mainstream media got it wrong including how the polls were loaded and completely misunderstood who would vote stone s analysis is akin to theodore h white s seminal book the making of the president 1960 it is both a sweeping analysis of the trends that elected trump as well as the war stories of a hard bitten political survivor who donald trump called one tough cookie

## Unpacking $720 \div 4$ : More Than Just a Math Problem

Ever stared at a seemingly simple math problem and felt a sudden urge to delve deeper?  $720$  divided by  $4$  might seem straightforward at first glance, a quick calculation for most. But what if we peeled back the layers, exploring the various approaches to solving it and uncovering its applications in the real world? This isn't just about finding the answer; it's about understanding the why behind the calculation and its surprising relevance in our daily lives. Let's embark on this mathematical journey together.

**1. The Classic Approach: Long Division** The most traditional method for tackling  $720 \div 4$  is long division. This method, taught in elementary schools worldwide, systematically breaks down the division process into manageable steps. We start by asking how many times  $4$  goes into  $7$  (once, with a remainder of  $3$ ). Then we bring down the  $2$ , making  $32$ . Four goes into  $32$  eight times. Finally, we bring down the  $0$ , and  $4$  goes into  $0$  zero times. This leaves us with the answer:  $180$ . This method, while fundamental, is crucial for building a strong understanding of the division process. It provides a tangible representation of how we distribute a quantity evenly. Imagine dividing  $720$  candies equally amongst  $4$  friends. Long division visually guides us through this equitable distribution, ensuring each friend receives exactly  $180$  candies.

**2. Mental Math Magic: Shortcuts to Success** While long division is reliable, mastering mental math can significantly speed up calculations. For  $720 \div 4$ , we can leverage our understanding of place value. We can break down  $720$  into  $700 + 20$ . We know that  $700 \div 4 = 175$  (since  $4 \times 175 = 700$ ), and  $20 \div 4 = 5$ . Adding these results ( $175 + 5$ ) gives us  $180$  – a much quicker calculation than long division. This method demonstrates the power of breaking down complex problems into simpler, manageable parts. Consider a scenario where you're splitting a  $\$720$  bill evenly among  $4$  people. Using mental math techniques can provide a quick and accurate answer without resorting to a calculator, saving time and potentially avoiding embarrassing errors.

**3. Exploring Factors and Multiples: A Deeper Dive** Understanding the factors of  $720$  and the multiples of  $4$  unveils a deeper connection between these numbers. Factors are numbers that divide evenly into another number, while multiples are the results of multiplying a number by integers. Since  $720$  is a multiple of  $4$  ( $720 = 4 \times 180$ ), the division becomes a process of finding the factor that, when multiplied by  $4$ , yields  $720$ . This perspective highlights the inherent relationship between multiplication and division, emphasizing their inverse nature. Imagine you're planning a party with  $720$  guests, and you want to arrange them into groups of  $4$ . Understanding factors and multiples helps you instantly determine the number of groups needed ( $180$ ).

**4. Applications in Real-World Contexts** The seemingly simple calculation of  $720 \div 4$  has vast real-world applications.

Consider scenarios like: Resource Allocation: Dividing 720 liters of water evenly among 4 communities for irrigation. Inventory Management: Distributing 720 items equally across 4 stores. Construction: Determining the number of 4-meter sections needed for a 720-meter fence. Finance: Splitting a \$720 profit among 4 partners. These examples demonstrate how seemingly abstract mathematical concepts directly impact our daily lives and various professional fields.

5. Beyond the Basics: Expanding the Horizons The problem  $720 \div 4$  serves as a foundational stepping stone to more complex calculations. It lays the groundwork for understanding concepts such as fractions, percentages, and ratios, all crucial for navigating various academic and professional challenges. For instance, expressing  $720 \div 4$  as a fraction ( $720/4$ ) simplifies to  $180/1$ , reinforcing the concept of equivalent fractions. This simple problem is not merely an isolated exercise but a key component of a broader mathematical landscape, emphasizing the interconnectedness of various mathematical principles.

Conclusion: The seemingly simple equation  $720 \div 4$  reveals a depth that extends far beyond its immediate answer (180). Through exploring various methods, understanding underlying principles, and examining real-world applications, we've transformed a basic calculation into a gateway to a deeper appreciation of mathematics. Its versatility underscores the fundamental importance of mastering basic arithmetic operations, enabling us to solve complex problems efficiently and effectively in various contexts.

Expert-Level FAQs: 1. What is the prime factorization of the result (180)? The prime factorization of 180 is  $2^2 \times 3^2 \times 5$ . 2. How can we solve  $720 \div 4$  using modular arithmetic? In modular arithmetic,  $720 \div 4$  would be congruent to 0 (mod 4), indicating that 720 is divisible by 4. 3. What is the relationship between  $720 \div 4$  and the concept of divisibility rules? The divisibility rule for 4 states that a number is divisible by 4 if its last two digits are divisible by 4. Since 20 is divisible by 4, 720 is also divisible by 4. 4. How can we represent  $720 \div 4$  using different number bases (e.g., binary, hexadecimal)? Converting 720 and 180 to binary and hexadecimal would provide alternative representations of the division process within different number systems. 5. Can we utilize logarithms to solve this problem, and if so, how would this approach compare to traditional methods? While not the most efficient method for this specific problem, logarithms can be used to solve equations involving exponentials, offering an alternative approach for more complex scenarios involving similar division problems within exponential functions.
