Frequently Asked Questions (FAQs)

1. Is "to lean" a transitive or intransitive verb? "To lean" is primarily intransitive, meaning it doesn't take a direct object. While you can say "lean something against something," the main verb action is still the act of leaning itself. 2. What's the difference between "lean" and "incline"? While both relate to tilting, "lean" suggests a more casual or informal tilting, often involving physical support. "Incline" suggests a more formal or gradual slope or tendency. 3. How do I use "to lean" in a passive voice? Since "to lean" is mainly intransitive, forming a passive voice construction is less common and often unnatural. However, you could use a passive form in specific circumstances like, "The picture was leaned against the wall." 4. Are there any phrasal verbs related to "to lean"? Yes, there are several, such as "lean on," "lean into," and "lean towards," each having a distinct meaning. "Lean on" implies reliance,

"lean into" implies embracing something fully, and "lean towards" indicates a preference. 5. What are some common mistakes people make when using "to lean"? A common mistake is confusing the past participle ("leaned") with the past tense ("leaned")—they are the same. Another error might be incorrectly applying transitive verb rules to this mainly intransitive verb.
