assumptions about suicide many pronouncements have been made about those who have died by their own hand without careful attention to the words of the dead themselves drawing upon far ranging creations by famous twentieth and twenty first century japanese writers and little known amateurs alike such as death poems suicide notes memorials suicide maps and manuals works of literature photography film and manga kirsten cather interrogates how suicide is scripted and to what end entering the orbit of suicidal writers and readers with care she shows that through close readings these works can reveal fundamental beliefs about suicide and just as crucially about acts of writing these are not scripts set in stone but graven images and words nonetheless that serve to mourn the dead straddling two impulses to put the dead to rest and to keep them alive forever these words reach out to us to initiate a dialogue with the dead one that can reveal why it matters to write into and from the void

this volume was first published by inter disciplinary press in 2013 it is all too easy to begin the introduction of a book examining suicide by citing statistics on rates of death around the world the vast majority of research seeks to make sense of suicide through quantitative analysis however this does not begin to do justice to the lived experience while we

do not wish to suggest there is one right lens through which to study suicide we must recognize that there are myriad lenses through which to examine it there are many voices many stories that must be heeded and these stories are not just of the people who have themselves died by suicide but also those who are or have been suicidal and those who have been bereaved by suicide by examining cultural perspectives different media memory and place as well as loss this book aims to tell stories of suicide and working and living with the suicidal

with precise and beautiful prose the short stories in jennifer down's pulse points carry an emotional clarity and intensity that is truly impressive books publishing the characters in jennifer down's pulse points live in small dusty towns glittering exotic cities and slow droll suburbs they are mourners survivors and perpetrators in the award winning aokigahara a young woman travels to the sea of trees in japan to say goodbye in coarsegold a woman conducts an illicit affair while her recovering girlfriend works the overnight motel shift in the middle of nowhere in dogs foggo runs an unruly gang of bored cruel boys with a scent for fresh meat in pressure okay a middle aged man goes to the theatre gets a massage remembers his departed wife navigates the long game of grief with his adult daughter jennifer down whose first novel our magic hour was commended in the 2017 victorian premier's literary award is a masterful stylist whose sharp eye has been compared to that of helen garner pulse points is a gutting collection that showcases her singular voice and reminds us once more that this is a writer of great talent jennifer down was born in 1990 our magic hour was highly commended in the victorian premier's literary award her writing has appeared in the age sydney morning herald saturday paper australian book review kill your darlings lifted brow best australian stories and blue mesa review she is one of sydney morning herald's young novelists of the year 2017 jennifer down is a subtly extraordinary writer and pulse points is one of the best australian literary offerings we'll see this year good reading pulse points is fluid graceful and shocking down serves life up ruthlessly to us in small heart wrenching packages overturning expectations swiftly from story to story but leaving us faintly uplifted in the end overland this is a finely crafted collection that reminds us how sad and beautiful it is simply to be alive down's debut novel our magic hour was shortlisted for the nsw premier's award for new writing and she was named a 2017 smh best young australian novelist it's probably insulting to comment upon how young she is but the emotional depth of her writing displays a gift that will no doubt continue to unfold as her body of work grows saturday paper taking the reader from melbourne to the usa each beautifully crafted story is a fascinating escape into someone else's life sunday life down is exemplary at drawing whole characters and quickly giving them depth stories are heavy with atmosphere and words are

chosen with care she has a knack of talking honestly about the nature of contemporary life and i look forward to more sydney morning herald pulse points is an impressively poised and even collection down s stories are alive with psychological acuity and technical dexterity they offer thoughtful sometimes heartbreaking insights into our anxieties and desires readers of her intelligent subtle and affecting prose clearly have much to look forward to australia book review down s back with a collection of stories cementing her status as one of australia s finest literary talents marie claire jennifer down is going to be a major part of the future of australian literature the quality of her writing as well as her ability to tap into the loves fears and anxieties many of us experience guarantee this readings all of the stories in this collection are examples of the extent to which empathy can be employed in fiction down looks at human emotion under a microscope in each of these stories but always does so with care and compassion readings prize for new australian fiction 2018 judges comments this young australian writer was named one of the sydney morning herald s best young australian novelists of 2017 here she shows off her impressive skill as a short story writer jennifer down shows great insight into human vulnerability good reading best fiction books of 2017 jennifer down s pulse points is full of perfectly crafted miracles of storytelling kill your darlings best of 2017 the stories are both paradigms and gentle subversions of the short story form down draws on the ordinary and everyday to deconstruct the myth of class mobility in this haunting and resonant collection judges comments 2018 sydney morning herald best young australian novelists down writes about love and friendship with an emotionally resonant sparseness rather than offering answers to life s big questions the stories offer glimpses into people tackling them a collection pulsing with emotion a writer crackling with potential kirkus reviews

political disillusionment is widespread in contemporary society in japan the search for the outside of a stagnant reality sometimes leads marginalised young people to a disastrous image of social change the fukushima nuclear disaster was the realisation of such an image triggering the largest wave of activism since the 1960s the disaster revealed the interconnected nature of contemporary society the protesters regretted that their past indifference to politics prefigured such a catastrophe and became motivated to protest in the streets they did not share any totalising ideology or predetermined collective identity instead the activism provided a space for each body to encounter others who forced them to feel and think which also introduced an ethical dimension to their politics in this book azumi tamura proposes a concept of politics as a series of endless experiments based on creative responses to unexpected forces instead of searching for a transcendental reference for politics she investigates an immanent force within individuals that motivates

them to become involved in political action referencing deleuzian philosophy tamura provides a different epistemological and ontological approach to the social movement studies she suggests social movements themselves generate knowledge about how one may live better in a complex society and where our lives are exposed to uncertainty this knowledge is neither empirical knowledge nor normative political theory of how we should live instead social movements bring affective knowledge into politics as they offer a space for experimenting with how we might live the encounter with such knowledge galvanizes our desire for how we want to live and encourages new experiments

this book explores the politics of anti nuclear activism in tokyo after the fukushima nuclear disaster of march 2011 analyzing the protests in the context of a longer history of citizen activism in tokyo it also situates the movement within the framework of a global struggle for democracy from the arab spring to occupy wall street by examining the anti nuclear movement at both urban and transnational scales the book also reveals the complex geography of today s globally connected social movements it emphasizes the contestation of urban space by anti nuclear activists in tokyo and the weaving together of urban and cyber space in their praxis by focusing on the cultural life of the movement from its characteristic demonstration style to its blogs zines and pamphlets this book communicates activists voices in their own words based on excellent ethnographic research it concludes that the anti nuclear protests in tokyo after the fukushima disaster have redefined social movement politics for a new era providing an analysis of a unique period in japan s contemporary urban history from the perspective of eyewitness observations this book will be useful to students and scholars of japanese politics sociology and japanese studies in general

manga and anime inspire a wide range of creative activities for fans blogging and contributing to databases making elaborate cosplay costumes producing dôjinshi amateur manga and scanlations and engaging in fansubbing and diy animation indeed fans can no longer be considered passive consumers of popular culture easily duped by corporations and their industrial capitalist ideologies they are now more accurately described as users in whose hands cultural commodities can provide instant gratification but also need to be understood as creative spaces that can be inhabited modified and enhanced user enhanced the sixth volume of the mechademia series examines the implications of this transformation from consumer to creator why do manga characters lend themselves so readily to user enhancement what are the limitations on fan creativity are fans simply adding value to corporate properties with their enhancements

and can the productivity and creativity of user activities be transformed into genuine cultural enrichment and social engagement through explorations of the vitality of manga characters the formal and structural open endedness of manga the role of sexuality and desire in manga and anime fandom the evolution of the lolita fashion subculture the contemporary social critique embodied in manga like helpman and ikigami and gamer behavior within computer games user enhanced suggests that commodity enhancement may lead as easily to disengagement and isolation as to interaction connection and empowerment contributors brian bergstrom lisa blauersouth aden evens dartmouth college andrea horbinski itô gô tokyo polytechnic u paul jackson yuka kanno shion kono sophia u tokyo thomas lamarre mcgill u christine l marran u of minnesota miyadai shinji tokyo metropolitan u miyamoto hirohito meiji u livia monnet u of montreal miri nakamura wesleyan u matthew penney concordia u montreal emily raine brian ruh kumiko saito bowling green state u rio saitô college of visual arts st paul cathy sell james welker u of british columbia yoshikuni igarashi vanderbilt u

shiver inducing science not for the faint of heart no one studies fear quite like margee kerr a sociologist who moonlights at one of america s scariest and most popular haunted houses she has seen grown men laugh cry and push their loved ones aside as they run away in terror and she s kept careful notes on what triggers these responses and why fear is a universal human experience but do we really understand it if we re so terrified of monsters and serial killers why do we flock to the theaters to see them why do people avoid thinking about death but jump out of planes and swim with sharks for kerr there was only one way to find out in this eye opening adventurous book she takes us on a tour of the world s scariest experiences into an abandoned prison long after dark hanging by a cord from the highest tower in the western hemisphere and deep into japan s mysterious suicide forest she even goes on a ghost hunt with a group of paranormal adventurers along the way kerr shows us the surprising science from the newest studies of fear what it means how it works and what it can do for us full of entertaining science and the thrills of a good ghost story this book will make you think laugh and scream

photography has been a key means by which australians have sought to define their relationships with japan from the fascination with all things japanese in the late nineteenth century through the era of white australia the bitter enmity of the pacific war the path to reconciliation in the post war period and the culturally complicated bilateralism of today australians have used their cameras to express a divided sense of conflict and kinship with a country that has by turns

fascinated and infuriated the remarkable photographs collected and discussed here for the first time shed new light on the history of australia s engagement with its most important regional partner pacific exposures argues that photographs tell an important story of cultural production response and reaction not only about how australians have pictured japan over the decades but how they see their own place in the asia pacific pacific exposures presents the first study of the photographic exchanges between australia and japan its photographers personalities motivations anxieties and tensions based on a diverse range of archival materials interviews and well chosen photographs dr luke gartlan university of st andrews pacific exposures will become a key text on australia s interactions with japan and the way that photographs can inform cross cultural relations through their production consumption and circulation prof kate darian smith university of tasmania

Decoding 350cm: A Comprehensive Guide to Centimeters and Inches

This article aims to provide a comprehensive understanding of the conversion between centimeters (cm) and inches (in), specifically focusing on the equivalent of 350 centimeters in inches. We'll delve into the conversion process, explore practical applications, and address common questions surrounding metric and imperial units of measurement. Understanding this conversion is crucial for various tasks, from crafting projects and understanding international product specifications to comprehending global data and even simply navigating everyday life.

Understanding the Metric and Imperial Systems

Before jumping into the conversion, let's briefly understand the two systems involved: Metric System (International System of Units or SI): This system is based on powers of 10, making conversions relatively straightforward. It uses meters (m) for length, grams (g) for mass, and liters (l) for volume. Centimeters (cm) are a sub-unit of the meter, with 100 centimeters equaling one meter. Imperial System (US Customary Units): This system is more complex, with less consistent relationships between units. It uses inches (in), feet (ft), yards (yd), and miles (mi) for length. Conversions within this system often involve fractions and irregular multipliers. The difference in structure makes direct comparison and conversion necessary, particularly when dealing with international collaborations or accessing information from different sources.

Converting 350cm to Inches: The Calculation

The fundamental conversion factor between centimeters and inches is approximately 1 inch = 2.54 centimeters. This means that to convert centimeters to inches, we divide the number of centimeters by 2.54. Therefore, to convert 350 centimeters to inches: $350 \text{ cm} / 2.54 \text{ cm/in} \approx 137.8 \text{ inches}$. So, 350 centimeters is approximately equal to 137.8 inches. It's important to note that this is an approximate value due to rounding. More precise calculators might give a slightly different answer (e.g., 137.795), but 137.8 inches is sufficiently accurate for most practical purposes.

Practical Applications of the Conversion

Understanding this conversion has widespread applications in various fields:

- Construction and Engineering:** Blueprints and building plans often use both metric and imperial units. Converting measurements ensures accuracy and avoids errors in construction. For example, a contractor might need to convert the dimensions of a door (given in centimeters) to inches to ensure it fits the existing door frame (measured in inches).
- Manufacturing and Industry:** International trade requires consistent communication about product dimensions. Converting units ensures that components from different manufacturers (using different measurement systems) can fit together seamlessly. Imagine a car manufacturer sourcing parts from suppliers in different countries – accurate conversion is crucial for assembly.
- Textiles and Fashion:** Clothing sizes often vary between countries due to differing measurement systems. Converting measurements ensures accurate sizing and fitting across international markets. For example, a designer might need to convert a dress pattern's measurements (in cm) to inches for a US-based manufacturer.
- Everyday Life:** Even in daily life, understanding this conversion can be helpful. For instance, you might need to convert the height of a bookshelf (given in centimeters) to inches to ensure it fits a specific space in your home.

Beyond the Calculation: Understanding Precision and Significant Figures

While we've calculated 350cm as approximately 137.8 inches, the precision of the answer depends on the context. If you're dealing with rough estimations, a whole number (138 inches) might suffice. However, for precise engineering or scientific applications, more significant figures are required. The number of significant figures reflects the accuracy of the measurement. In the case of 350cm, the precision is implied, and the conversion reflects that. However, if the measurement was 350.00cm, implying higher precision, a more precise answer (e.g., 137.795 inches) would be warranted.

Conclusion

Converting 350 centimeters to inches involves a straightforward calculation using the conversion factor of 2.54 cm/in. This results in approximately 137.8 inches. Understanding this conversion is crucial for navigating various aspects of life, from simple home improvements to complex international collaborations. Remembering this conversion and grasping its implications is a valuable skill in our increasingly globalized world.

FAQs

1. Is 2.54 cm/in an exact conversion factor? While commonly used, it's an approximation. The exact definition is 1 inch = 2.54 centimeters, but in practice, rounding might occur depending on the precision needed.
2. How can I convert inches to centimeters? Multiply the number of inches by 2.54 to obtain the equivalent in centimeters.
3. Are there online converters for cm to inches? Yes, many online conversion tools are readily available, offering accurate and quick conversions.
4. Why are both metric and imperial systems still in use? Historical reasons and varying levels of adoption across different countries contribute to the continued use of both systems.
5. What are some common mistakes to avoid when converting

units? Failing to use the correct conversion factor and neglecting significant figures are common mistakes. Always double-check your calculations and ensure you're using the appropriate level of precision.
